## Metonic Cycle 322 From Adam Began 2016 AD

**Cycle 322 from Adam started Oct 3, 2016 (Tishri 1, 5777)**

I have used the cycles of the Moon as explained below to align with Biblical events in history for high accuracy not just guessing. The first part of the article is the technicalities of what a metonic cycle is and why it's used for dating events.

The first Metonic Cycle would of course start on Day 4 of creation when the Moon was made according to creationism. The reasons ancient people used the moon to determine time is because it was easier than determining time based on the sun. You can just look at the phases that reoccur over and over again.

I have tagged every major Biblical event with a year to the very day if Months and Days are provided in scripture such as the "seventeenth day of the second month" would be Hebrew month Iyyar 17 and so forth.

**Genesis1:14** And God said, "Let there be lights in the vault of the sky to separate the day from the night, and let them serve as signs to mark sacred times, and the days and years.

There are 12 standard years with 12 Moons and 7 leap years with 13 moons

The **12 Standard Years** in the 19 year cycle are years 1,2,4,5,7,9,10,12,13,15,16, and 18 (353,354,355 Day Years)

The **7 Leap Years** in the 19 year cycle are years 3,6,8,11,14,17, and 19 (383,384,385 Day Years)

12 Moons x 12 Years = 144 Moons

13 Moons x 7 Years = 91 Moons

For a total of 235 Moons occurring within the 19 year cycle.

The Hebrew system for keeping time is based on what they call the Molad which basically means birth of the Moon, or the point when the first sliver is visible after the new moon. They also use the term Rosh Chodesh referring to the New Moon.

Each Molad is 29 Days 12 hours 44 minutes and 3 1/3 rd seconds

Tishri 1, Year 1 which is the beginning of the Hebrew Calendar system (they don't have a year 0) was determined by the Molad which is equivalent to September 6, 3761 BC (Julian) at **11:11:20 PM**

All the new months in their calendar are determined hence forth by adding 29 days 12 hours 44 minutes and 3 1/3 rd seconds from this date

Tishri 1 is the first day in their Civil Calendar (Month 7, Nisan being Month 1) which is also Rosh Hashanah "The Feast of Trumpets" which commemorates the creation of the world and marks the beginning of the 10 days of Awe which ends on the most important Jewish holiday called Yom Kippur (The Day of Atonement)

They sound what is called a shofar which is likened to a trumpet but it's an animal horn. Trumpets in the Book of Revelation would actually be a shofar, not a brass instrument of some kind.

Both Rosh Hashanah and Yom Kippur make up the two holiest days in the year. Yom Kippur or the Day of Atonement would be the day God decides each persons fates weather they live or die, Jews are to make amends and ask forgiveness of Sins.

Yet another important time is **3:11:20 AM** in Jewish time keeping which determines if the new month will be delayed. This is a postponement rule. They have 4 rules that determine when Tishri 1 will take place. It cannot fall on certain days of the week or it would place their holidays on the wrong days of the week conflicting with their sabbaths and so forth.

The common lunar year is composed of 354 days which is 11 days short of the Solar Gregorian Calendar. I noticed that in 2016 this Metonic cycle begins again and the following 19 years of the 19 year cycle have this many days.

**METONIC**

Tishri 1, 5777 (353 Days) = October 3, 2016 (Tishri 1, 5777) **(Metonic Cycle Restarts)**

Tishri 1, 5778 (354 Days) = September 21, 2017

Tishri 1, 5779 (385 Days) = September 10, 2018 (Leap year 3)

Tishri 1, 5781 (353 Days) = September 19, 2020

Tishri 1, 5782 (384 Days) = September 7, 2021 (Leap year 6)

Tishri 1, 5783 (355 Days) = September 26, 2022  
 Tishri 1, 5784 (383 Days) = September 16, 2023 (Leap year 8)  
 Tishri 1, 5785 (355 Days) = October 3, 2024  
 Tishri 1, 5786 (354 Days) = September 23, 2025  
 Tishri 1, 5787 (385 Days) = September 12, 2026 (Leap year 11)  
 Tishri 1, 5788 (355 Days) = October 2, 2027  
 Tishri 1, 5789 (354 Days) = September 21, 2028  
 Tishri 1, 5790 (383 Days) = September 10, 2029 (Leap year 14)  
 Tishri 1, 5791 (355 Days) = September 28, 2030  
 Tishri 1, 5792 (354 Days) = September 18, 2031  
 Tishri 1, 5793 (383 Days) = September 06, 2032 (Leap year 17)  
 Tishri 1, 5794 (355 Days) = September 24, 2033  
 Tishri 1, 5795 (385 Days) = September 14, 2034 (Leap year 19)

**Add the years:**  $353 + 354 + 385 + 355 + 353 + 384 + 355 + 383 + 355 + 354 + 385 + 355 + 354 + 383 + 355 + 354 + 383 + 355 + 385 = 6,940 \text{ Days or } 1 \text{ Metonic Cycle}$

## Metonic Cycles Defined

A Metonic Cycle is a period of 19 Years (6,940 Days) (6,939.56) that keeps time in line using the cycles of the Moon phases. This way you don't end up having Fall when it should be Spring. This is ancient as it was easier to count moon phases then guess when a new solar year came and went.

Leap years occur within the cycle on years: 3, 6, 8, 11, 14, 17, & 19 (383, 384, 385 Day Years)

A different number of days occur throughout this 19 year period

353: (Called Common Deficient 353 Days) -12 Days Short of Solar Year  
 354: (Called Common Regular 354 Days) -11 Days Short of Solar Year  
 355: (Called Common Complete 355 Days) -10 Days Short of Solar Year  
 383: (Called Embolismic Deficient 383 Days) + 18 Days Longer than Solar Year  
 384: (Called Embolismic Regular 384 Days) + 19 Days Longer than Solar Year  
 385: (Called Embolismic Complete 385 Days) + 20 Days Longer than Solar Year

### A Typical Solar Year is 365.2442 Days Long

*Using the figure of 19 Metonic cycles  $322 \times 19 = \text{Gives } 6,118 \text{ years which I have determined fits all Biblical events into History accurately from Adam.}$*

6,940 days (Days in 19 Year Cycle) (6,939.56)

7 out of the 19 years are Embolismic years that have a 13th month called Adar II.

5 months have 30 days = 150 days

5 months have 29 days = 145 days

2 months have 29 or 30 = 59 or 60 days

1 Extra Month Adar II = 29 days

1 Extra day Adar in leap years

Nisan = 30

Iyyar = 29

Sivan = 30

Tammuz = 29

Av = 30

Elul = 29

Tishri = 30

Heshvan = 29 or 30

Kislev = 29 or 30

Teveth = 29

Shevat = 30

Adar = 29 (30 days on 385 day leap year)

Adar II = 29

353 Days = (30 Day Months) x 5 + (29 Day Months) x 7

354 Days = (30 Day Months) x 6 + (29 Day Months) x 6

355 Days = (30 Day Months) x 7 + (29 Day Months) x 5

**383 Days** = (30 Day Months) x 6 + (29 Day Months) x 7

**384 Days** = (30 Day Months) x 7 + (29 Day Months) x 6

**385 Days** = (30 Day Months) x 8 + (29 Day Months) x 5 (Adar has extra day for 30 in leap years)

## Parts

1 Month is 29 days, 12 hours, and 793 Parts: Written: 29d 12h 793p

1 Part is 3 & 1/3 rd seconds (3.20)

18.75 Parts per minute  $60/3.20 = 18.75$

1125 Parts per Hour  $18 \times 60$  ( $18.75 \times 60 = 1125$ )

1125 Parts x 24 hours = 27,000 Parts

## 4 Postponement Rules

1. If **Tishri 1** (the first day of their civil calendar) lands on Wednesday, Friday, or Sunday it's postponed by a day.
2. If the new moon appears after noon, **Tishri 1** is postponed by a day. If the new day is one of those in Rule 1, **Tishri 1** gets postponed by two days.
3. In a regular 12-month year, if the new moon of Tishri appears more than 20 seconds past **3:11 A.M.** on a Tuesday, **Tishri 1** is postponed by two days.
4. In years that follow a leap year (383,384,385 day years), the new moon appearing on a Monday more than 43 seconds past 9:32 A.M., **Tishri 1** is postponed a day.

These rules prevent Tishri 1 (Feast of Trumpets) and other Jewish holidays from falling on certain days of the week. A day is added to the 8th month called *Heshvan* or subtracted from the 9th month called *Kislev*.

## The 19 year Cycle based on the Embolismic Years (*Leap Months*)

## Blue Moons

A traditional Blue Moon occurs when a season has four full moons. These are called a seasonal Blue Moon, occurring as seen in above chart about every 2.5 years.

There are roughly 29.5 days between full moons, making it unusual for two full moons to fit into a 30/31 day-long month. This means February will never have a blue moon as the month is too short. Within Spring, Summer, Fall, and Winter you typically get 3 Full Moons.

[Article Link on Blue Moons](#)

29.5 Days x 12 Months = 354 Days (Common Regular) 11 days short of Solar 365.2442

12 Moons x 12 Years = 144 Moons

13 Moons x 7 Leap Years = 91 Moons

Total 235 Moons over 19 year Metonic Cycle

## New Days start at Sunset

*Unlike the Western World, Jewish days begin at sundown*

**Genesis 1:5** And God called the light Day, and the darkness he called Night. And the evening and the morning were the first day.

## The first sliver after the New Moon starts the Jewish Month

*The beginning of every month would be the first visible sliver after the new moon*

## The Hebrew Calendar

*AM = Anno Mundi (Year of the world)*

*AM 5779/ 2018 AD*

The current Hebrew allotment of 5780 years (2019) is 304 Metonic Cycles. The events in the Bible are still cramped through time and the Hebrew calendar can't fit it all.

The average Hebrew calendar year is longer by about 6 minutes and 40 seconds than the current mean tropical year, so that every **216 years** the Hebrew calendar will fall a day behind the current mean tropical year; and about every **231 years** it will fall a day behind the mean Gregorian calendar year.

# The Pope Removed 10 days from the Calendar in 1582 AD

*Changing from Julian to the Gregorian Time System*

[Article Link regarding the Gregorian Calendar](#)

In 1582, Pope Gregory XIII introduced the Gregorian calendar. Europe didn't want to change from the Julian calendar, first implemented by Julius Caesar in 46 B.C.

Since the Roman emperor's system miscalculated the length of the solar year by **11 minutes**, the calendar had fallen out of sync with the correct seasons.

## Biblical Events Dated

### Adam Created

Spring 4103 BC

*-1656 years Flood to Adams creation in 4103 BC*

*-352 Years from Flood in 2447 BC a 385 Day Year (Explained Below) to Abraham's birth in 2088 BC*

*-7 years Padding (Common in Birth Dating the Patriarchs and only padding required in article)*

*-75 Years gets us to Abraham's birth in 2088 BC from Jesus death*

*-430 Years of Israel Slavery (Exodus 12:40) gets us to the year of the Promise*

*-40 Years in the Wilderness*

*-591 Conquests/Joshua/Judges/Saul/David/ Solomon's 3rd year (480 years + 111 years of Oppression)*

*-431 Years of the Kings (King Solomon's 37 additional years to Zedekiah Last King of Judah)*

*-70 Years Captivity by Nebuchadnezzar*

*-483 Years (Daniel 7'7s, 62'7s from Jesus Death April 2, 33 AD Thursday Julian) (Nisan 13, 3793)*

*-1,983 years 10-3-2016 AD (Metonic cycle Restarts) to 4-2-33 AD is 1,983 years*

Using the Moons Metonic Cycles from 10-3-2016 AD (Cycle resets) in reverse to Spring 4103 BC gives 6,118 years.  $6118/19 = 322$  Metonic Cycles. Currently Nisan 6 (the 6th day of Creation) averages from mid March to late March using 353,354,355 day years.

The reasoning is simple, the Moon was created on day 4 and Adam day 6 therefore the Moon started at an even Metonic Cycle. Even if we use long days such as 1,000 years (A day is like a 1,000 years unto God) it would still all land on even Metonic 19 year cycles using 988 years instead which are divisible by 19 to be "like" 1,000 years.

**2 Peter 3:8** But you must not forget this one thing, dear friends: A day is like a thousand years to the Lord, and a thousand years is like a day.

The only padding used in this timeline is from the Flood to Abraham. To put it simply the creation year must be divisible by 19 from **10-3-2016 AD**. There aren't enough events to warrant another 19 year cycle nor take away 19 as it wouldn't all fit into the timeline from Jesus death as explained at the end of the article. Padding the Flood era is commonly accepted, Kings and Judges would not require this since they are immediately replaced and have nothing to do with birth dating. For this time span only 7 years were used.

And they all answered him and said: 'Let us all swear an oath, and all bind ourselves by mutual imprecations 5 not to abandon this plan but to do this thing.' Then sware they all together and bound themselves 6 by mutual imprecations upon it. And they were in all two hundred; **who descended in the days of Jared on the summit of Mount Hermon**, and they called it Mount Hermon, because they had sworn

During the times of Jared 3643 BC angels came to Mount Herman descended and took human wives thus creating the first Nephelim some 459+ years after Adam and Eve were crucified along with the serpent according to the Book of Enoch. The scriptures only tells us "in the days of Jared" thus it could have occurred early, mid or late in his lifespan of 962 years being just short of Methuselahs longest age of 969 years.

This period of Nephelim was 1,196 possible years before Noah's Flood depending on the year the Fallen Angels made their oath to sin with mankind. This oath is likely the reason we celebrate modern Valentine's day and there is a "cupid" mascot for it.

(After 365 Years)

**3116 BC**

The Book of Enoch was written before this time period

Enoch the 7th from Adam was taken to the Heavens 365 years after his birth because he pleased God with his prophecy and testimony. This occurs in 3116 BC which is Metonic Cycle 311 from Creation Day 1 in 9043 BC. It is a 385 day year being the 19th year of the cycle. The 7th "Day" of creation as mentioned further in this article begins in 3115 BC the following year.

Recall that 1,000 years is "like" a day to God, 988 years are as close to 1,000 but divisible by 19 year cycles (52x19) being "like" a Day to God.

**Hebrews 11:5** By faith Enoch was taken away so that he did not see death, "and was not found, because God had taken him"; for before he was taken he had this testimony, that he pleased God.

**Jude 1:14** Now **Enoch**, the seventh from Adam, prophesied about these men also, saying, "Behold, the Lord comes with ten thousands of His saints, 15 to execute judgment on all, to convict all who are ungodly among them of all their ungodly deeds which they have committed in an ungodly way, and of all the harsh things which ungodly sinners have spoken against Him."

Yes he gave testimony and the other writers knew it. Not only do two approved bible books mention this but also the Book of Enoch was among those found with the Dead Sea scrolls in 1 of 11 caves likely meaning it was held in high esteem by early Christians and Jews.

**Noah's Flood (385 day Year)****5-23-2447 BC Monday (Julian) / Iyyar 17, 1314 (Hebrew)**

*7 years of padding are used from Abraham's birth in reverse to Noah's Flood +352 years. Abraham's birth is calculated from Jesus death on 4-2-33 AD in reverse. This is the only logical 385 day year in this time-frame. Using 1,656 years from the Flood to Adam gives us 4103 BC for Adams creation year which perfectly aligns with the Metonic Cycle October 3, 2016 to 4103 BC, being exactly 6118 years or 322 x 19. This means we are in cycle 322 from Adam currently.*

For all the following events to take place this requires a 385 day year

Nisan 1 to Iyyar 16 = 46 days + 40 Days of Rain + 150 Days Water Covers the Earth + 149 Days Earth Dry Last Day = 385

[Calendar Conversion Calculator](#)

**Genesis 8:13** By the first day of the first month (Nisan 1) of Noah's six hundred and first year, the water had dried up from the earth.

As stated it must be a 385 day year because these events take place within one year making a 365.2442 day solar year or other Metonic Year impossible. A 385 day year is far more rare to find in the cycle of 19 years and makes this a very good candidate

There are only 7 leap years in the 19 year Metonic Cycle and 385 day years don't occur that often. They also used a lunar system in those days as counting moon phases was easier than determining where the sun is.

### Babylon/ Tower of Babel/ Nimrod Era

2380 BC to 2316 BC

Nimrod began the tower of Babel and Babylon a bit before Peleg the 15th Biblical Patriarch from Adam where we read Earth was divided. I have this range sometime around 2380 BC to 2316 BC.

**Genesis 10:8** Cush (Grandson of Noah) was the father of Nimrod, who became a mighty warrior on the earth. 9 He was a mighty hunter before the Lord; that is why it is said, "Like Nimrod, a mighty hunter before the Lord." 10 The first centers of his kingdom were Babylon, Uruk, Akkad and Kalneh, in Shinar. 11 From that land he went to Assyria, where he built Nineveh, Rehoboth Ir, Calah 12 and Resen, which is between Nineveh and Calah—which is the great city.

Earth was genetically divided in Peleg's time period referring to the Serpent seed and God's seed from this earlier verse in Genesis.

**Genesis 3:15** I will put enmity between you and the woman, and between your offspring and her offspring; he shall bruise your head, and you shall bruise his heel."

Notice this next verse we are given power to tread upon them, thus bruising their heads.

**Luke 10:19** Behold, I give unto you power to tread on serpents and scorpions, and over all the power of the enemy: and nothing shall by any means hurt you.

**Genesis 10:25** To Eber were born two sons: the name of the one was Peleg, for in his days the earth was divided, and his brother's name was Joktan.

As you may know from reading my other articles such as this one [LINK](#) I explain that I can hear telepathy in the 3rd dimension as well as any other dimension as long as you are about 400 feet near me. The reptilians hang out around me trying to figure me out and have given away some valuable information to me because I can hear them in English. They call themselves "Jesuits" as well as their people. This categorizes Grey Aliens, Fallen Angel's (whom refer to themselves as Demons from Heaven for some reason) as well as Nephelim and other EBE's driven by demonic scorpion beings whom simply come from dead Nephelim as they have no souls but are in fact born as wicked spirits.

**Enoch 15:8** And now, the giants, who are produced from the spirits and flesh, shall be called evil spirits upon 9 the earth, and on the earth shall be their dwelling. Evil spirits have proceeded from their bodies; because they are born from men and from the Holy Watchers is their beginning and primal origin; 10 they shall be evil spirits on earth, and evil spirits shall they be called. [As for the spirits of heaven, in heaven shall be their dwelling, but as for the spirits of the earth which were born upon the earth, on the earth shall be their dwelling.]

**Hebrews 11:5** By faith **Enoch** was taken away so that he did not see death, "and was not found, because God had taken

him"; for before he was taken **he had this testimony, that he pleased God.**

**Jude 1:14** Now **Enoch**, the seventh from Adam, **prophesied** about these men also, saying, "Behold, the Lord comes with ten thousands of His saints, <sup>15</sup> to execute judgment on all, to convict all who are ungodly among them of all their ungodly deeds which they have committed in an ungodly way, and of all the harsh things which ungodly sinners have spoken against Him."

Yes **he gave testimony** and the other writers knew it. Not only do **two approved bible books** mention this but also the Book of Enoch was among those found with the Dead Sea scrolls likely meaning it was held in high esteem by early Christians and Jews.

See this [Link](#) for greater details and also this **Dead Sea Scrolls** information on [Enoch](#).

Jesuit scorpion breed people whom are 14,15 and or 16 are likely Babylonian era surface demons aka scorpions. They are this breed number as that is the patriarch from Adam's DNA they come from as a Nephelim breed. The higher the breed number the less times they've been around. My trash-man telepathically said to the other as they we gathering my garbage he was 5 generations of Nephelim making them as old as the US Constitution era but no where near as old as Babylonian era breed.

There is a song with the lyrics "make love to you like 15 men" this is rather strange but not if you know the artist is secretly referring to a breed number of Jesuit rather than a quantity of persons. Here is the [LINK](#)

I've also heard these reptilians say that 15 people were crucified or 14 or 16 people and I've heard this from people chatting in their homes as I walk my dogs past them. They are not referring to a quantity of people but rather a breed number. These Scorpion Jesuits are Demon People who can simply hop right into another soulless body when they die or be uploaded in some form of embryonic chamber as I call them.

**4-8-1583 BC Sunday Julian** (Nisan 15, 2178 Hebrew - Exodus)

**Exodus 12:29** At midnight the Lord struck down all the firstborn in Egypt, from the firstborn of Pharaoh, who sat on the throne, to the firstborn of the prisoner, who was in the dungeon, and the firstborn of all the livestock as well.

**Exodus 12:31** During the night Pharaoh summoned Moses and Aaron and said, "Up! Leave my people, you and the Israelite's! Go, worship the Lord as you have requested. Take your flocks and herds, as you have said, and go. And also bless me."

**Exodus 12:42** Because the Lord kept vigil that night to bring them out of Egypt, on this night all the Israelite's are to keep vigil to honor the Lord for the generations to come.

**Numbers 33:3** The Israelite's set out from Rameses on the fifteenth day of the first month, the day after the Passover. They marched out defiantly in full view of all the Egyptians, who were burying all their firstborn, whom the Lord had struck down among them; for the Lord had brought judgment on their gods.

Jewish Days begin at sunset

**Deuteronomy 16:1** Observe the month of Aviv and celebrate the Passover of the Lord your God, because in the month of Aviv he brought you out of Egypt by night.

**Exodus 12:22** And ye shall take a bunch of hyssop, and dip it in the blood that is in the bason, and strike the lintel and the two side posts with the blood that is in the bason; and none of you shall go out at the door of his house until the morning.

**Exodus 12:8** "That same night they are to eat the meat roasted over the fire, along with bitter herbs, and bread made without yeast. Do not eat the meat raw or cooked in water, but roast it over the fire—head, legs and inner parts. Do not leave any of it till morning; if some is left till morning, you must burn it. This is how you are to eat it: with your cloak tucked into your belt, your sandals on your feet and your staff in your hand. Eat it in haste; it is the LORD's Passover. On that same night I will pass through Egypt and strike down every firstborn—both men and animals—and I will bring judgment on all the gods of Egypt. I am the LORD."

This to me says they left shortly after midnight because Deuteronomy 16:1 says "he brought you out of Egypt by night" and Numbers 33:3 "The Israelite's set out from Rameses on the fifteenth day of the first month, the day after the Passover" which would be that very night since Nisan 15 would occur after sunset of Nisan 14. If you waited to leave at night again it would be Nisan 16. They also ate in haste meaning they would need to be ready fast after the meal.

**Genesis 1:5** God called the light "day," and the darkness he called "night." And there was evening, and there was morning—the first day.

This appears to imply **a day = evening** and **night = morning** since it's in the same order in the verse. In Exodus 12:22 we read "and none of you shall go out at the door of his house until the morning." and again in Deuteronomy 16:1 we read "because in the month of Aviv he brought you out of Egypt by night." so they did exactly what they were told.

## Calculating Joshua's Age (Israel's Leader after Moses Dies)

Moses young assistant was named Joshua who later took over as leader of the Israelite's when Moses passes away. It only however gives his age when he passes away so we have to use other scriptures to keep the timeline moving with events to get to certain key dates.

He leads the conquests to take the promised land from the current inhabitants.

Moses sends spies into Canaan at the start of the 40 years in the Wilderness (Numbers 13:1-33), and only two people Joshua and Caleb didn't complain about being able to overcome them (Numbers 14:6-9).

God is angry and swears that only these 2 will live to cross over into the land

**Numbers 14:28** Say unto them, *As truly as I live*, saith the LORD, as ye have spoken in mine ears, so will I do to you:

**Numbers 14:30** Your carcasses shall fall in this wilderness; and all that were numbered of you, according to your whole number, from twenty years old and upward, which have murmured against me,

**Numbers 14:31** Doubtless ye shall not come into the land, *concerning* which I sware to make you dwell therein, save Caleb the son of Jephunneh, and Joshua the son of Nun.

### Caleb wants his Plunder

Now there is a verse after the conquests are over where Caleb wants his plunder.

**Joshua 14:10** Now, as you can see, the LORD has kept me alive and well as he promised for all these forty-five years since Moses made this promise—even while Israel wandered in the wilderness. Today I am eighty-five years old.

This verse gives us a period of 5 years for the conquests since we know they wandered for 40 years and he says 45 years have passed giving us the year **1538 BC for the completion of the conquests.**

We know Moses lead them out of Egypt when he was 80 years old. (Exodus 7:7) and sent spies within this same year they arrived at Mount Sinai.

If Caleb (Age 85) gets his plunder in 1538 BC that is 45 years from time Spies went out in Canaan.

You are considered military age at 20 due to all warriors age 20 were added to the census

**Numbers 1:18** and they assembled the whole community of Israel on that very day.<sup>[fn]</sup> All the people were registered according to their ancestry by their clans and families. The men of Israel who were twenty years old or older were listed one by one,

With Moses being 80 and Joshua is a "Young Aid" we can safely assume he has to be younger than Age 20 since you are considered military age. We still to this day don't even let people drink alcohol until they are 21.

Moses dies at age 120 so if we make Joshua age 18 as a young assistant you will see the math works out perfectly below for determining the symbolic 480 years to the temple construction.

Joshua is age 18 at time of Exodus on **4-8-1583 BC Sunday**

Therefore take his age of 18 + 40 years in the wilderness + 5 years of conquests and we subtract 110 years from this giving the age he lives after the conquests

18 + 40 + 5 – 110 years of old age = 47 years old past the conquests and before there were any Judges in Israel.

**Joshua 24:29** After this, **Joshua** son of Nun, the servant of the LORD, **died at the age of 110.**

## Counting the time to get to “480” Years

**1 Kings 6:1** And it came to pass in the **four hundred and eightieth year** after the children of Israel were come out of the land of Egypt, in the fourth year of Solomon's reign over Israel, in the month Zif, which is the second month, that he began to build the house of the LORD.

The problem with 480 literal years is that all the events don't fit within 480 years. Thus we use symbolism for “coming out of the land of Egypt and subtracting when Israel was oppressed. The Bible gives us these actual years these oppression's lasted which was 111 years in the Book of Judges.

They were also punished in the Wilderness for not having “Come out of Egypt” due to the Golden Calf worship and the complaining. It's fair to say 40 years in the Wilderness is very similar in the way Oppression is used to subtract time from the 480 years.

All events have years so we can add them up in scripture, the only mystery however is the age of Joshua who was Moses young assistant and we have to establish his age because it doesn't mention what age he becomes the assistant but gives the age he lives to. Joshua becomes the leader after Moses dies and conquers the promised land.

Other unknowns which had to be figured out was the time that Samuel was both priest and judge in the Book of Judges. There was also a Dark Period which has no time associated with it. Regardless how I distributed these 2 pieces it still has to fit within the time frame when every other year for events are given.

### ***430 Years of events occur from Judges 3:8 to 1 Samuel 4:18***

In the Book of Judges there are exactly 111 Years of Oppression. The 430 Includes both Philistine Oppression's 40 and 18 Years and removes Samson 20 years because his Judging Israel overlaps with the 40 year Oppression.

Some consider the two periods of Philistine Oppression to be overlap, however it makes no sense to say they were oppressed for 18 years prior to the 40 when there are Ibsan, Elon, and Abdon whom Judge Israel for a period of 25 years combined before the next 40 year Philistine Oppression. I further explain this arguement further down as well.

**1 Kings 6:1** And it came to pass in the **four hundred and eightieth year** after the children of Israel were come out of the land of Egypt, in the fourth year of Solomon's reign over Israel, in the month Zif, which is the second month, that he began to build the house of the LORD.

**"480" + 111 (Oppression) = 591 Actual Years**

### **371 Actual Years occur from Judges 3:8 to 11:26**

**This shows us that subtracting oppression was used in scripture**

**Judges 11:26** - While Israel dwelt in Heshbon and her towns, and in Aroer and her towns, and in all the cities that be along by the coasts of Arnon, **three hundred years?** why therefore did ye not recover them within that time? *(This makes no mention of the wilderness of 40 years being part of the 300 years)*

The Conquests: 5 years

Joshua's Old Age: 47 years (I explain how I came to this number in research above)

**The Judges are:**

***Othniel*** - 40 Years - Judges 3:11

**Ehud** - 80 Years - Judges 3:30

**Shamgar** - Part of the 80 Years of Ehud (Reasoning is 80 years plus Ehud's age would be impossible to be alive for the entire 80 years and this is the only Judge with no number of years) - Judges 3:30-31

**Deborah** - 40 Years - Judges 5:31

**Gideon** 40 Years - Judges 8:28

**Abimelech** - 3 Years - Judges 9:22

**Tola** - 23 Years - Judges 10:2

**Jair** - 22 Years - Judges 10:3

**Total of 248 years of Judging** (40+80+40+40+3+23+22)

**Grand Total:** 5 + 47 + 248 = 300 years not including the 71 years of oppression below which is explained.

### Oppression and scriptures for this same time period:

**King of Mesopotamia Cushan-rishathaim** (Oppresses Israel 8 Years) Judges 3:8

**King of Moab – Eglon** (Oppresses Israel 18 Years) Judges 3:14

**Jabin / Sisera King of Canaan** (Oppresses Israel 20 Years) Judges 4:3

**Mideon** (Oppresses Israel 7 Years) Judges 6:1

**Philistines and Ammonites** (Oppresses Israel 18 Years) Judges 10:6-8

### Total oppression 71 years

300 +71 years = 371 years of events occur from "Judges 3:8 to 11:26" time period

Subtracting 71 years of Oppression from this time span 8+18+20+7+18 gives us 300 years to match Judges 11:26 which says only 300 years passed.

*This shows that **oppression** was **indeed removed** from calculating "when Israel left Egypt for the 480"*

*This leaves 220 actual years (Including the Philistine Oppression of 40 years)*

*for the remaining span in the Book of Judges (591 years -371 = 220)*

+ 6 years Jephthah (He's the Judge that explains 300 years had passed at the start of his judgeship, thus he's not included in above calculation) - Judges 11:26 and Judges 12:7

+ 7 years Ibsan - Judges 12:9

+ 10 years Elon - Judges 12:11

+ 8 years Abdon - Judges 12:13

+ 40 years Philistines Oppression - Judges 13:1 "Again the Israelite's did evil in the eyes of the Lord, so the Lord delivered them into the hands of the Philistines for forty years." (Again is used here indicating a separate Philistines Oppression from the 18 Year previous one. We can also argue here that Samson uses 20 Years of the following 40 Year oppression which only leaves 20 years. If we add the previous Judges timelines of 6+7+10+8 we get 31 years not 20)

- **Samson** Judges 15:20 and Judges 16:30-31 (*Samson was a Judge during the last half of the Philistines 40 year oppression, so we don't count his timeline of 20 years*)

+ 3 Years Dark period Judges 17:6 (*Guessed, but regardless this has to fit within the 591 actual years*)

+ 40 years Eli (Died at 98 Years Old) 1 Samuel 4:14-18

+ 51 for Samuel's non overlapping years (*Guessed, but regardless this has to fit within the 591 actual years*)

(Samuel's old age as read in 1 Samuel 12:1:1-2; 1 Samuel 25:1; 1 Samuel 28:3 overlaps 15 years with Eli and 12 years with Saul. The overlap with Eli is guessed but as mentioned must fit within the 591 years. As we read the verses in the Book of Samuel we see Saul commits suicide shortly after Samuel dies making 12 years of overlap highly likely. This gives Samuel an old age of 78 which would make him old and grey headed as stated in the scripture)

+ 12 years Saul (*Paul gives 40 years in the New Testament however the actual year is missing from ancient manuscripts being damaged. Scholars disagree that he ruled 40 years and closer to 12 since also the second number reveals a 2 not a 0 making 40 unlikely*)

How many years did King Saul actually rule - [External Article Link](#)

+ 40 years David

+ 3 year Solomon (*So we only count 3 here because the scripture says in the 4<sup>th</sup> year of Solomon's reign*)

**For total of 220 Years** – (Samson Judges for 20 years during half of the 40 years of oppression) making 220 years to be part of the 480 +111 for 591 actual years.

**Lets add it all up:**

371 + 220 = 591 Total Years (480 + 111)

## Nebuchadnezzar enslaves the Jews for 70 years until 451 BC

**Jeremiah 29:10** This is what the Lord says: "When seventy years are completed for Babylon, I will come to you and fulfill my good promise to bring you back to this place."

## Decree to rebuild Jerusalem

451 BC

Simply subtract 483 years from Jesus death April 2, 33 AD

April 2, 451 BC (Decree) to April 2, 33 AD (Jesus Death) = 176,416 days or 483 years

**Daniel 9:25** Now listen and understand! **Seven sets of seven plus sixty-two sets of seven will pass from the time the command is given to rebuild Jerusalem until a ruler—the Anointed One comes.** Jerusalem will be rebuilt with streets and strong defenses, despite the perilous times.

## Daniels 7-7s and 62-7s (483 years)

Jesus Birth, Anointment, Death, and Ascension dating:

There are a plethora of web sites that agree on this date because of several factors have to line up such as Herod the Greats ruling timeline, The High Priesthood of Caiaphas, The Governorship of Pontius Pilate, After "the Fifteenth Year of Tiberius Caesar", the earthquake that occurred and so forth to narrow down the date.

**Daniel 9:24** A period of seventy sets of seven has been decreed for your people and your holy city to finish their rebellion, to put an end to their sin, to atone for their guilt, to bring in everlasting righteousness, to confirm the prophetic vision, and to anoint the Most Holy Place.

**Daniel 9:25** Now listen and understand! Seven sets of seven plus sixty-two sets of seven will pass from the time the command is given to rebuild Jerusalem until a ruler—the Anointed One comes. Jerusalem will be rebuilt with streets and strong defenses, despite the perilous times.

**Daniel 9:26** After this period of sixty-two sets of seven, the Anointed One will be killed, appearing to have accomplished nothing, and a ruler will arise whose armies will destroy the city and the Temple. The end will come with a flood, and war and its miseries are decreed from that time to the very end.

**Daniel 9:24** "and to anoint the Most Holy Place" - Ron Wyatt claims Jesus blood is on the Ark of the Covenants Mercy Seat which is the Most Holy Place where blood was placed for forgiveness of Sin.

Reading his account we see that the rocks that were rent from the earthquake which allowed his blood to flow merely 20 feet below the site where he died and his blood poured onto the Mercy Seat fulfilling this prophecy. The Ark of the Covenant was hidden in an underground cavern in the very spot years prior to Nebuchadnezzar destroying Jerusalem.

Science claims that an earthquake did occur sometime between the years 26 and 36 AD reading this NBC News

NBC News Article on Earthquake in Jesus time period

**Matthew 27:51** At that moment the curtain of the temple was torn in two from top to bottom. The earth shook, the rocks split.

The world will be shown this coming soon, but blessed are those who believed but did not see as stated in scripture.

John the Baptist was six months older than Jesus Christ. (Luke 1: 26, 36) Simply add six months, May, June July, August, September and October which gives us October.

### Jesus Baptism (Anointment)

We know he ministered for about 3 years because it says he began around the age of 30. Below are the Passovers celebrated after his Anointment (Baptism)

3 Passovers - External Article Link

April 5, 30 AD (Nisan 14, 3790)

March 26, 31 AD (Nisan 14, 3791)

April 14, 32 AD (Nisan 14, 3792)

**Jesus Death** (*Using Daniel Prophecy of 70' 7s*) = **April 2, 33 AD Julian (Thursday) (Nisan 13, 3793)**

Dead in the grave for 3 days, using the following we see he was most likely already resurrected Saturday Eve or earlier Sunday morning as they arrived Sunday AM and he was already gone.

Mark 16:1-7 Saturday evening, when the Sabbath ended, Mary Magdalene, Mary the mother of James, and Salome went out and purchased burial spices so they could anoint Jesus' body. **Very early on Sunday morning, just at sunrise, they went to the tomb.** On the way they were asking each other, "Who will roll away the stone for us from the entrance to the tomb?" But as they arrived, they looked up and saw that the stone, which was very large, had already been rolled aside. When they entered the tomb, they saw a young man clothed in a white robe sitting on the right side. The women were shocked, but the angel said, "Don't be alarmed. You are looking for Jesus of Nazareth, who was crucified. He isn't here! He is risen from the dead! Look, this is where they laid his body. Now go and tell his disciples, including Peter, that Jesus is going ahead of you to Galilee. You will see him there, just as he told you before he died."

**Julian Calendar Days Below:**

*April 02, 33 AD Thursday = Nisan 13 Last Supper sundown*

*April 02, 33 AD - Thursday (Buried before Sundown which starts the Jewish Passover on Nisan 14)*

*April 03, 33 AD AM - Friday Nisan 14*

*April 03, 33 AD PM - Friday Nisan 14*

*April 04, 33 AD AM - Saturday Nisan 15*

*April 04, 33 AD PM - Saturday Nisan 15*

*April 05, 33 AD AM - Sunday (Already Resurrected before they arrived at tomb)*

***Dying on Thursday is Still 3 days in the grave even if it was for a couple hours since the Bible never says 3 full days.***

### Jesus Ascension

**(40 days Later)**

**5-15-33 AD Friday (Julian) / Iyyar 26, 3793 (Hebrew)**

**Acts 1:3** *After his suffering, he presented himself to them and gave many convincing proofs that he was alive. He appeared to them over a period of forty days and spoke about the kingdom of God.*

*Adding 40 days for his accession from his resurrection on 4-5-33 AD would give us 5-15-33 AD (Julian).*

## It's Currently 190 years into Day "13" of Metonic Creationism

**2 Peter 3:8** says a day is "like" 1,000 years to God

Like isn't 1,000 exactly, so I used Metonic Moon Cycles of 19 year cycles to try 1007 or 988 years for a day which are as close to 1,000 as you can get but divisible by 19.

Another point is the sun and moon are created on day 4 so using literal days makes no sense here.

Also from Genesis 2:16 - and the Lord God commanded the man, saying, "Of every tree of the garden you may freely eat; 17 but of the tree of the knowledge of good and evil you shall not eat, for in the day that you eat of it you shall surely die."

Adam didn't die in a literal day, he lived to be 930 years old have children and so forth also indicating a day to God is 988 years or 1007 which are divisible by 19.

**Genesis 5:27** Altogether, Methuselah lived a total of 969 years, and then he died.

I find it very interesting that the oldest living man in the Bible was 969 years old. If we take 988 years - 969 we get 19 years which makes him die the equivalent time of a Metonic Cycle since a day to God is likely 988 years.

Using 988 (52 x 19) years

Day 1 - 9043 BC Metonic Cycle 0

Day 2 - 8055 BC Metonic Cycle 52

Day 3 - 7067 BC Metonic Cycle 104

Day 4 - 6079 BC Metonic Cycle 156

Day 5 - 5091 BC Metonic Cycle 208

Day 6 - 4103 BC Metonic Cycle 260 (Adam Created)

Day 7 - 3115 BC Metonic Cycle 312

Day 8 - 2127 BC Metonic Cycle 364

Day 9 - 1139 BC Metonic Cycle 416

Day 10 - 151 BC Metonic Cycle 468

Day 11 - 838 AD Metonic Cycle 520

Day 12 - 1826 AD Metonic Cycle 572

Day 13 - 2016 AD Metonic Cycle 582 (10 of 52 cycles for 190 years from our current 10-3-2016 Metonic Cycle)

It's currently Metonic Cycle 582 of Day 13 in Creationism

## Obscure Celebrated Holidays

**April Fools Day** and other obscure holidays.

Could Eve from the Book of Genesis been deceived in 4103-4102 BC on April Fools Day, thus this is why Nisan 14 is important? Nisan 14 (the Jewish Passover) isn't always April 1st on this day in the Gregorian vs Hebrew system. It could have been this very day in the BC era as years alternate differently from the Gregorian/Hebrew systems. Coming up on 4-1-2026 the Jewish Passover aligns with April Fools Day, indicating it does occur throughout time.

Holidays are designed by the Devil for specific reasons and although people think April Fools day might be from a later time it could very well indicate this Biblical event. I say 4102 BC because that gives them a year in Eden before sinning, but it could of been a couple weeks before being deceived with the beginning being the Hebrew month of Nisan 1. Also worth noting the Tower of Babel was most likely constructed at this very location where the lie was told. I have guessed it might have been an obelisk in shape which is why you see them even still today like the Washington Monument and further back to Egypt. Eden was by the Tigris and Euphrates Rivers as is the ruins of Babylon. Eden and Babylon are a few days walk from Mount Ararat where Noah's Ark came to rest.

The only way to know is by expanding the Hebrew calendar to the equivalent of 4-1-4103/4102 BC. If April 1st lands on Nisan 14 then this would be extremely interesting reason that this day was chosen by God for the Jews to leave Egypt in an Exodus the following day.

### Halloween

Jesus was likely born in October as research of John the Baptist is easier to figure out and puts John 6 months before Jesus is born. Is Halloween a day the devil wanted to take this away from him and celebrate evil instead? Christmas in December is impossible for his birthdate. Describing the events taking place at his birth is Luke 2:8 "And there were shepherds residing in the fields nearby, keeping watch over their flocks by night." which doesn't happen in an Israeli winter.

October aligns with the Hebrew month called Cheshvan. It is the only month that does not have any holidays or special mitzvot. We are taught that it is "reserved" for the time of the Messiah who will inaugurate the Third Temple in the month of Cheshvan.

Inauguration is the beginning or introduction of a system, policy, or period. Could this Jewish system refer to Jesus body as the 3rd Temple being born in this month? The reasoning is Jesus blood is on the Ark of the Covenants Mercy Seat according to Ron Wyatt's discovery.

**John 2:19** Jesus answered and said unto them, Destroy this temple, and in three days I will raise it up. (Which he did on his Resurrection Day)

**1 Cor 6:19-20** Do you not know that your bodies are temples of the Holy Spirit, who is in you, whom you have received from God? You are not your own; 20 you were bought at a price. Therefore honor God with your bodies.

If we take 10-31-3 BC to 4-2-33 AD Julian it is 13,302 days Jesus would have lived and adding the additional 40 days gives us 13,342 Days.

Jesus born October 31, 3 BC Thursday works as Heshvan 22, 3759 if Herod dies in 1 BC (Jan 9th calculation below) this gives 1 year and 70 days for the astrologers to get to Herod and the command to kill 2 year old's and under despite secularism disagreement that it occurred.

A full lunar eclipse appeared over Jerusalem January 9-10, 1 BC which is said to have occurred before Herod's death.

Here is a Link for very interesting Herod BC dating

Jesus was baptized around the age of 30 and ministered for about 3 years so 3 BC birth makes him 34 years 153 days old dying 4-2-33 AD on Thursday since there is no year 0 in BC to AD. This causes a slight age problem with a more expected age of 33.5 rather than 34.5

This is the exact scripture:

**Luke 3:23** Jesus was about thirty years old when he began his public ministry. Jesus was known as the son of Joseph. Joseph was the son of Heli. ("About" isn't exactly a specific word so he could have been 31??)

It is recognized he attended 4 Passovers during this period of 3.5 years.

33 AD for his death works very well because it aligns with many details such as other Roman persons timelines and his death occurring on a Thursday gets us 3 days in the grave just before passover.

I can't use 2BC Heshvan to get a Julian Halloween October 31st so that's out.

It works at 1 BC but Herod is dead before a Heshvan/Halloween birth occurs negating the 2 year old crucify command.

These have to be Thursday to qualify for 3 day Resurrection on a Sunday morning.

These are Julian/Hebrew Dates.

- 33 AD - Nisan 13 is on Thursday April 2nd
- 32 AD - Nisan 13 is on a Sunday
- 31 AD - Nisan 13 is on a Sunday
- 30 AD - Nisan 13 is on a Tuesday
- 29 AD - Nisan 13 is on a Friday
- 28 AD - Nisan 13 is on a Sunday

This concludes this article. I didn't create it to be just another person that throws his hat into dating Biblical events or gives a window of time. I set out to really dig into it and be highly accurate with my reasoning. Hope you enjoyed it.
